

Neoscan Solutions GmbH

is a young MedTech company passionate about innovative solutions in the field of medical MR imaging. At our modern company headquarters in Magdeburg's Port of Science, we develop and produce pioneering MRI devices for clinics and research institutes worldwide.

Who are we looking for?

We are looking for a

Software Engineer (m/f/d)

full-time, permanent position at the earliest possible date.

Your profile

- university degree - preferably in a STEM subject
- Sound knowledge of C++
- Experience with the development framework "Qt", especially with QML modeling
- Previous knowledge of DICOM/PACS

Your tasks

- Agile software development in a team
- Development of our touch-based scanner UI
- Participation in integration of products into customer's existing IT infrastructure
- Taking on administrative tasks in the areas of DevOps and cyber security

Why Neoscan Solutions?

We are an interdisciplinary and international team. We offer flexible working hours, a pleasant working atmosphere, fair pay and modern production and office facilities on the Elbe. To support our diverse corporate culture and promote equal opportunities, we give preference to applications from women with equal aptitude and qualifications. We actively promote a balanced gender distribution in our team.

Take the opportunity to make a difference in our young company with highly innovative medical technology products!

How to apply?

Please send your informative application documents (cover letter, CV, certificates) by e-mail to: Dr. Volkert Roeloffs, hr@neoscan-solutions.com
